SHAREHOLDERS LETTER

Dear Shareholder,

2020 and 2021 to date have seen significant changes for Kincora and globally. COVID-19 has impacted national and territory economies and borders, and the way we all work. Over this period we have seen a strong acceleration towards decarbonization and increase in the copper price.

This period has also been transformational for Kincora where the Company built on the acquisition (by grant) of a single licence (the Nyngan project) in Australia's Lachlan Fold Belt on 21st November, 2019.

By mid-March 2020, Kincora had exercised an option over RareX Limited's six copper-gold exploration licences. In just over four more weeks, the exploration team had the first rig turning on the brownfield Trundle project, while another licence (the Nevertire project) was acquired by government grant.

Today, drilling has continued uninterrupted at the Trundle project, maiden Kincora drilling programs commenced at our Nyngan and Fairholme projects, and neighbouring junior explorer drilling is advancing the understanding of our Cundumbul project. The Company has secured a third new project via grant (Mulla) and benefitted from the New South Wales government's cooperative funding drilling program.

We are actively and systematically pursuing our focus on the discovery of world-class copper gold porphyry associated deposits and the near term ambition to become the leading listed pure play explorer in what we believe is one of the most significant gold rich porphyry regions in the world, the Lachlan Fold Belt, and which is the foremost porphyry region of Australia. Coupled with drilling, project generation and realisation opportunities continue to be integral to our business model.

Reflecting the Company's strategy, a commitment to list on the Australian Securities Exchange ("ASX") was made in the fall of 2020 and strategic review commenced relating to our Mongolian portfolio of projects following the grant of a mining license for the Bronze Fox project.

Listing on the ASX was achieved in March, 2021 alongside a well oversubscribed A\$10m equity raising with strong support from our lead-managers Morgans and Bridge Street Capital and with EY supporting legally. The dual listing has opened up a new significant pool of domestic capital and seen a significant increase in liquidity.

On the Mongolian tenements in late 2020 the exploration team continued field activities at the Tourmaline Hills Intrusive Complex at the West Fox prospect. The highlight was the gathering of rock chip samples with high average gold and copper grades and the identification of new epithermal target areas. Further field activities have only recently commenced to advance and expand these targets. In December 2020, a binding term sheet was signed with Resilience Mining Mongolia. Under this agreement, Kincora retains significant upside to exploration, project generation and development successes for the Mongolian portfolio, and streamlining our core focus advancing priority drilling activities in Australia.

In our view, a favourable structural outlook for the copper sector continues to emerge. A lack of new discoveries and new projects in the pipeline coupled with diminishing production from existing major mines will likely not see the supply side meet the expected robust demand underpinned by global decarbonization and industrial growth. We believe that the strong structural outlook for copper, and the industry dynamics will see copper demand and pricing stronger and higher for longer.

The Company is focused on executing our clear strategy and business model. As shareholders, the Board and management team are very conscious of our share price. We believe our ability to execute will be well

rewarded, particularly given the tailwind from the expected commodity price environment and operating in a Tier 1 jurisdiction.

In all aspects of our business, the Company retains our focus on the safety and wellbeing of our staff, engaging with stakeholders and creating shareholder value.

Thank you for investing in Kincora Copper and we look forward to advising of further positive and value enhancing developments this year and in 2022.

GENERAL PROXY INFORMATION

Solicitation of Proxies

The solicitation of proxies will be primarily by mail, but proxies may be solicited personally or by telephone by directors, officers and regular employees of the Company. The Company will bear all costs of this solicitation. We have arranged for intermediaries to forward the meeting materials to beneficial owners of the Common Shares held of record by those intermediaries and we may reimburse the intermediaries for their reasonable fees and disbursements in that regard.

Appointment of Proxyholders

The individuals named in the accompanying form of proxy (the “Proxy”) are officers and/or directors of the Company. **If you are a shareholder entitled to vote at the Meeting, you have the right to appoint a person or company other than either of the persons designated in the Proxy, who need not be a shareholder, to attend and act for you and on your behalf at the Meeting. You may do so either by inserting the name of that other person in the blank space provided in the Proxy or by completing and delivering another suitable form of proxy.**

Voting by Proxyholder

The persons named in the Proxy will vote or withhold from voting the Common Shares represented thereby in accordance with your instructions on any ballot that may be called for. If you specify a choice with respect to any matter to be acted upon, your Common Shares will be voted accordingly. The Proxy confers discretionary authority on the persons named therein with respect to:

- (a) each matter or group of matters identified therein for which a choice is not specified, other than the appointment of an auditor and the election of directors;
- (b) any amendment to or variation of any matter identified therein; and
- (c) any other matter that properly comes before the Meeting.

In respect of a matter for which a choice is not specified in the Proxy, the management appointee acting as a proxyholder will vote in favour of each matter identified on the Proxy and, if applicable, for the nominees of management for directors and auditors as identified in the Proxy.

Registered Shareholders

Registered shareholders may wish to vote by proxy whether or not they are able to attend the Meeting in person. A registered shareholder may submit a proxy using one of the following methods:

- (a) complete, date and sign the Proxy and return it to the Company’s transfer agent, Computershare Trust Company of Canada (“Computershare”), by fax within North America at 1-866-249-7775, outside North America at (416) 263-9524, or by mail to 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1 or by hand delivery at 3rd Floor, 510 Burrard Street, Vancouver, British Columbia, V6C 3B9; or
- (b) use a touch-tone phone to transmit voting choices to the toll free number given in the proxy. Registered shareholders who choose this option must follow the instructions of the voice response system and refer to the enclosed proxy form for the toll free number, the holder’s account number and the proxy access number; or

- (c) log on to Computershare's website at, www.investorvote.com. Registered shareholders must follow the instructions provided and refer to the enclosed proxy form for the holder's account number and the proxy access number.

Whatever method a registered shareholder uses to submit their proxy, they must ensure that the proxy is received at least 48 hours (excluding Saturdays, Sundays and holidays) before the Meeting or the adjournment thereof, i.e. [December 10, 2021].

Beneficial Shareholders

The following information is of significant importance to shareholders who do not hold Common Shares in their own name. Beneficial Shareholders should note that the only proxies that can be recognized and acted upon at the Meeting are those deposited by registered shareholders (those whose names appear on the records of the Company as the registered holders of Common Shares) or as set out in the following disclosure.

If Common Shares are listed in an account statement provided to a shareholder by a broker, then in almost all cases those Common Shares will not be registered in the shareholder's name on the records of the Company. Such Common Shares will more likely be registered under the names of intermediaries. In Canada the vast majority of such Common Shares are registered under the name of CDS & Co. (the registration name for The Canadian Depository for Securities Limited, which acts as nominee for many Canadian brokerage firms), and in the United States, under the name of Cede & Co. as nominee for The Depository Trust Company (which acts as depository for many U.S. brokerage firms and custodian banks).

All holders of CDIs are Non-Registered Holders. See the section entitled "Notice to Holders of CDIs" below.

Intermediaries are required to seek voting instructions from Beneficial Shareholders in advance of meetings of shareholders. Every intermediary has its own mailing procedures and provides its own return instructions to clients.

There are two kinds of Beneficial Shareholders: Objecting Beneficial Owners ("OBOs") object to their name being made known to the issuers of securities which they own; and Non-Objecting Beneficial Owners ("NOBOs") who do not object to the issuers of the securities they own knowing who they are.

The Company is taking advantage of the provisions of National Instrument 54-101 - Communication with Beneficial Owners of Securities of a Reporting Issuer ("NI 54-101") that permit the Company to deliver proxy-related materials directly to its NOBOs. As a result NOBOs can expect to receive a scannable Voting Instruction Form ("VIF") from our transfer agent, Computershare Investor Services, Inc. ("Computershare"). The VIF is to be completed and returned to Computershare as set out in the instructions provided on the VIF. Computershare will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the Meeting with respect to the shares represented by the VIFs they receive.

These security holder materials are being sent to both registered and non-registered (beneficial) owners of the securities of the Company. If you are a beneficial owner, and the Company or its agent has sent these materials directly to you, your name, address and information about your holdings of securities, were obtained in accordance with applicable securities regulatory requirements from the intermediary holding securities on your behalf.

By choosing to send these materials to you directly, the Company (and not the intermediary holding securities on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your VIF as specified in the request for voting instructions that was sent to you.

Beneficial Shareholders who are OBOs should follow the instructions of their intermediary carefully to ensure that their Common Shares are voted at the Meeting.

The proxy form supplied to you by your broker will be similar to the proxy provided to registered shareholders by the Company. However, its purpose is limited to instructing the intermediary on how to vote your Common Shares on your behalf. Most brokers delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. (“Broadridge”) in Canada and in the United States. Broadridge mails a VIF in lieu of the proxy provided by the Company. The VIF will name the same persons as the Company’s Proxy to represent your Common Shares at the Meeting. You have the right to appoint a person (who need not be a Beneficial Shareholder of the Company), who is different from any of the persons designated in the VIF, to represent your Common Shares at the Meeting and that person may be you. To exercise this right, insert the name of the desired representative, which may be you, in the blank space provided in the VIF. The completed VIF must then be returned to Broadridge in accordance with Broadridge’s instructions. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Common Shares to be represented at the Meeting and the appointment of any shareholder’s representative. **If you receive a VIF from Broadridge, the VIF must be completed and returned to Broadridge, in accordance with its instructions, well in advance of the Meeting in order to have your Common Shares voted or to have an alternate representative duly appointed to attend the Meeting and vote your Common Shares at the Meeting.**

Holders of CDIs

- **CDI Holders may give instructions to Chess Depository Nominees Pty Limited**

A CDI is a CHESSE Depository Interest representing an uncertificated unit of beneficial ownership in the common shares of the Company registered in the name of CHESSE Depository Nominees Pty Limited (“CDN”), a wholly owned subsidiary company of ASX Limited that was created to fulfil the functions of a depository nominee.

CDN is authorized by its Australian Financial Services Licence to operate custodial and depository services, other than investor directed portfolio services, to wholesale and retail clients. One CDI represents one underlying Common Share of the Company.

“CHESSE” refers to the Clearing House Electronic Subregister System, which is the electronic system pursuant to which CDIs of the Company trade on the Australian Securities Exchange (the “ASX”).

CDI Holders are non-registered or beneficial owners of the underlying common shares, which underlying shares are registered in the name of CDN. As holders of CDIs are not the legal owners of the underlying common shares, CDN is entitled to vote at meetings of shareholders on the instruction of the registered holder of the CDIs.

As a result, CDI Holders can expect to receive a voting instruction form, together with the Meeting Materials from Computershare Investor Services Pty Ltd (“Computershare Australia”), the CDI Registry in Australia. These voting instruction forms are to be completed by holders of CDIs who wish to vote at the Meeting and returned in accordance with the instructions contained therein. **Completed voting instruction forms must be returned no later than 11:00 a.m. (EST) on December 10, 2021 or forty-eight (48) hours, excluding Saturdays, Sundays and holidays, prior to the cut-off time for the receipt of proxies before any adjourned or postponed Meeting.**

CDN is required to follow the voting instructions properly received from registered holders of CDIs. If you hold your interest in CDIs through a broker, dealer or other intermediary, you will need to follow the instructions of your intermediary.

CDI Holders that wish to change their vote must in sufficient time in advance of the Meeting contact Computershare Australia to arrange to change their vote. If you hold your interest in CDIs through a

broker, dealer or other intermediary, you must in sufficient time in advance of the Meeting, arrange for your intermediary to change its vote through Computershare Australia in accordance with the revocation procedure set out above.

CORPORATE GOVERNANCE

General

Corporate governance refers to the policies and structure of the board of directors of a company, whose members are elected by and are accountable to the shareholders of the company. Corporate governance encourages establishing a reasonable degree of independence of the board of directors from executive management and the adoption of policies to ensure the board of directors recognizes the principles of good management. The Board is committed to sound corporate governance practices, as such practices are both in the interests of shareholders and help to contribute to effective and efficient decision-making.

Board of Directors

Directors are considered to be independent if they have no direct or indirect material relationship with the Company. A “material relationship” is a relationship which could, in the view of the Company’s Board of Directors, be reasonably expected to interfere with the exercise of a director’s independent judgment.

The Board facilitates its independent supervision over management by holding regular meetings at which members of management or non-independent directors are not in attendance and by retaining independent consultants where it deems necessary.

The independent members of the Board are John Holliday, Ray Nadarajah, Cameron McRae, and Lewis Marks. LIM Advisors have the right to board representation, with Mr. Marks being LIM's nominee.

The non-independent director is Sam Spring.

Directorships

The directors are currently serving on boards of the following other reporting companies (or equivalent) as set out below:

Name of Director	Name of Reporting Issuer	Exchange Listed
Cameron McRae	Erdene Resource Development	TSX & MSE

Orientation and Continuing Education

When new directors are appointed, they receive an orientation, commensurate with their previous experience, on the Company's properties, business, technology and industry and on the responsibilities of directors.

Board meetings may also include presentations and papers by the Company's management and employees to give the directors additional insight into the Company's business and industry.

Ethical Business Conduct

The Board has found that the fiduciary duties placed on individual directors by the Company's governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual directors' participation in decisions of the Board in which the director has an interest have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company.

Nomination of Directors

The Board considers its size each year when it considers the number of directors to recommend to the shareholders for election at the annual meeting of shareholders, taking into account the number required to carry out the Board's duties effectively and to maintain a diversity of views and experience.

The Board does not have a nominating committee, and these functions are currently performed by the Board as a whole. However, if there is a change in the number of directors required by the Company, this policy will be reviewed.

Compensation

The Board, acting through the Remuneration Committee, evaluates the performance of the CEO in conjunction with the Company's goals and objectives and, acting through the Remuneration Committee, approves the compensation level of the CEO, Chairman, Committee members and Board.

The Remuneration Committee held eight meetings, in which all committee members attended.

Other Board Committees

The Board has no committees other than the Audit Committee, Remuneration Committee and the Technical Committees.

The Technical Committee is responsible for the Company exploration strategy and plans, and provides a strong oversight to on-going operations.

Assessments

The Board monitors the adequacy of information given to directors, communication between the Board and management and the strategic direction and processes of the Board and committees.

STATEMENT OF EXECUTIVE COMPENSATION

Unless otherwise noted the following information is for the Corporation's last completed financial year (which ended December 31, 2020).

A. Named Executive Officers

For the purposes of this Circular, a Named Executive Officer ("NEO") of the Company means each of the following individuals:

- (a) the chief executive officer ("CEO") of the Company;
- (b) the chief financial officer ("CFO") of the Company;
- (c) each of the Company's three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of the most recently completed financial year whose total compensation was, individually, more than \$150,000, as determined in accordance with subsection 1.3(6) of Form 51-102F6, for that financial year; and
- (d) each individual who would be an NEO under (c) above but for the fact that the individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of that financial year.

B. Compensation Discussion and Analysis

The Company's board of directors (the "Board"), acting through recommendations of the Remuneration Committee, evaluates the performance of the CEO in conjunction with the Company's goals and objectives and, approves the compensation level of the CEO and of the Company's executive officers. The Board seeks to ensure that total compensation paid to all NEOs and committee chairs is fair and reasonable and is consistent with the Company's compensation philosophy.

The Board, acting through recommendations of the Remuneration Committee, is also responsible for recommending compensation for the directors and granting stock options to the directors, officers and employees of, and consultants to, the Company pursuant to the Corporation's Stock Option Plan. Each of the independent directors has appropriate experience and skills based on their involvement with various companies in the public company sector as disclosed in the section below on Relevant Skills and Experience.

On April 29th, 2020, the Company announced the annual remuneration review, with certain annual bonuses awarded to management, a portion of which will be satisfied through the issuance of common

shares. Shareholder approvals were gained at the 2020 AGM, with support also for a number of resolutions to facilitate the proposed ASX listing.

2021 Update – The Remuneration Committee completed its 2021 Review in September 2021 and was adopted by the Board on 1st October 2021. This included a review of ASX and TSXV peers, was important given the dual listing of March 2021 and the need to align contracts and plans across two listing jurisdictions. The key outcomes of the 2021 Remuneration review were:

- Adoption of an Equity Incentive Plan (“EIP”) to replace the TSX Venture Exchange specific Corporate Stock Plan.
- No increases in base pay to Non-Executive Directors (NED’s) individually or in aggregate.
- No increase in base pay to the CEO.
- No change in the KPI plan structure and principals for the CEO.
- No change in the 10% target for the options pool to be allocated to NED’s, Officers, consultants and the senior exploration team, although a proposed amended EIP is to be adopted to allow for grants of both options and performance rights up to increased limits discussed later in this document.
- An increased share in the weighting of the options pool to the Officers, consultants and the senior exploration team.
- To give directors, Officers and senior exploration team members the opportunity to take the equity part of their remuneration as performance rights (as allowed under the EIP).

Philosophy

The Company follows the practice of compensating its NEOs such that compensation is competitive with peer group companies, which allows the Company to attract and retain its key employees, and allows the Company to compensate based on performance. This philosophy is linked to the Company’s business strategy which includes increasing stakeholder value. In addition, the compensation programs aim for simplicity and responsiveness to market changes.

The Board oversight is total in that the Board annually determines the base salary, cash and stock incentives and grant of stock options. All incentives are subject to risk but the Board believes that these risks are mitigated because it has the right to determine all incentives in light of any inappropriate risks taken by a NEO. In addition, all NEO compensation policies and practices are similar, the Board can exercise the right to award or reduce any compensation, no policies are weighted towards short term goals, and policies are awarded upon an accomplishment of a short term task which affects the Company over a longer term.

Objective and Description of Business

Kincora is a junior resource company engaged in the acquisition, exploration and development of mineral properties, with a focus on copper-gold projects in Australia and Mongolia. Our objective is to create value for shareholders through the advancement and discovery of porphyry and epithermal deposits, particularly focused on the next generation of world-class porphyries in the Macquarie Arc of the Lachlan Fold Belt (“LFB”) in the Central West of New South Wales, Australia, and further countercyclical corporate and expansion opportunities.

In the third quarter of 2020, Kincora commenced a strategic review exploring avenues to involve partners in taking the Company’s Mongolian portfolio and strategy forward. In December 2020, Kincora announced a binding and conditional agreement with Resilience Mining Mongolia (“RMM”). RMM have

lodged a prospectus to list and undertake a capital raising on the Australian Securities Exchange (“ASX”), with Kincora to retain a carried interest at the project level and equity interest in RMM post admission.

2021 Update - In March 2021, Kincora dual listed on the ASX. In the Board’s view this is the natural stock exchange for the Company, with Kincora’s primary focus and value drivers now related to the LFB assets. The Company’s assets and team are better known in this domestic market, and by dual listing on the ASX, Kincora sought to access local investors who have an interest in funding local exploration and mining projects, and improve the Company’s liquidity.

The Company performs reviews of all NEOs annually, or as needed in light of company developments and market conditions, to ensure that compensation provided to top performing individuals is comparable to that of individuals with similar qualifications, skills and positions with peer companies within the resource sector. The compensation is also reviewed in light of the Company’s cash position, budgets and share prices to ensure that the compensation is also equitable to the Company and the future success of the Company. Detailed compensation reviews have taken place both pre and post Kincora’s dual listing on the ASX.

The Company is a reporting issuer in Ontario, British Columbia and Alberta, Canada. The Company’s common shares trade on the TSX Venture Exchange under the symbol KCC with a secondary prospectus listing of CHESS Depository Interests (“CDIs”) completed on the (“ASX”) on March 30th, 2021.

Components of Compensation

The Company’s key components of compensation are base salary, variable annual cash incentives, equity remuneration and stock options. The Company does offer other perquisites but such are not material on an annual basis.

Base Salary

A target salary is determined by the Board of Directors based on consideration of various marked factors. The target salary is the optimal salary paid to an individual who is proficient, experienced, has sufficient skills and potential and is performing at a high level. The Company follows standard industry practices when assessing compensation.

Annual Cash and Stock Incentives

The Board of Directors, via the Remuneration Committee, considers incentives to the executive management and NEOs from time to time based on objectives tied to the general improvement of the Company in terms of successful financings, property acquisitions, property option agreements, establishing control procedures, and other factors as determined by the Board of Directors.

Stock options

The philosophy of the Board of Directors is to grant options based on an individual’s involvement, proficiency, experience and performance levels. Options are reviewed and granted periodically.

2020 Remuneration Committee Review and Options Allocation Review

On April 29th, 2020, the Company announced that following the annual remuneration review, certain annual bonuses have been awarded to management of the Company, a portion of which will be satisfied through the issuance of an aggregate of 1,973,800 common shares at a deemed price of \$0.10 per share

The Board of Directors recommends that you vote in favour of the above resolution.

5. Approval of Amendment to Articles

The Company has completed a prospectus listing and was admitted to the official list of the ASX Limited (“ASX”) on March 29th, 2021. The ASX requires the Company to update its articles of association (“Articles”) to include certain provisions of the ASX Listing Rules in order to issue any securities that may be restricted under the ASX Listing Rules (“Restricted Securities”).

As at the date of this Circular, the Company does not have any Restricted Securities on issue. The change in the articles will facilitate the issue of options to joint lead managers of the Company’s ASX Listing.

To meet this requirement, the Company is seeking shareholder approval by way of a special resolution to amend its Articles to comply with ASX Listing Rule 9.1(a) and the requirements of ASX Listing Rule 15.12 as well as the requirements of Appendix 15A of the ASX Listing Rules.

The resolution, the full text of which is set out below (**ASX Listing Resolution**), must be passed by not less than two thirds of the votes cast by shareholders present or voting by proxy on the resolution at the Meeting:

“RESOLVED, as a special resolution, THAT:

1. The following Section 27(f) be added to the Articles

“If the Listing Rules require these Articles to contain a provision and it does not contain such a provision, these Articles are deemed to obtain that provision.”

2. The following Section 28 be added to the Articles:

Section 28 - ASX Restricted Securities

“Dispose”, “Holding Lock”, “Restriction Deed” and “Restricted Securities” have the meaning given to them in the Listing Rules.

If and for as long as the Company is admitted to the Official List of ASX, the following provisions are to apply:

- (i) A holder of Restricted Securities must not Dispose of, or agree or offer to Dispose of, those Restricted Securities during the escrow period applicable to those securities except as permitted by the Listing Rules or ASX.

3. Pursuant to section 259 of the British Columbia Business Corporations Act, the addition of Section 27(f) and Section 28 of the Articles per this Resolution 5 shall not take effect until a copy of this resolution is received for deposit at the Company's records office and, if necessary, a Notice of Alteration identifying the date of this resolution has been filed with the Registrar of Companies.
 4. Any one director or officer of the Company be authorized to execute and deliver all such documents and instruments, including a Notice of Alteration, and to do such further acts, as may be necessary to give full effect to this resolution or as may be required to carry out the full intent and meaning thereof.
 5. The directors of the Company be and are authorized to revoke this special resolution before it is acted on without further approval of the Shareholders.”

The Board of Directors recommends that you vote in favour of the above resolution. Unless such authority is withheld, the management representatives named in the as incorporated in Form of Proxy intend to vote for the ASX Listing resolution.

6. Approval for the Company to issue an additional 10% of the issued capital of the Company over a 12 month period pursuant to ASX Listing Rule 7.1A

6.1 General

ASX Listing Rule 7.1A provides that, in addition to the 15% placement capacity permitted without prior shareholder approval under ASX Listing Rule 7.1 an entity that is eligible and obtains shareholder approval under ASX Listing Rule 7.1A may issue or agree to issue, during the period the approval is valid, a number of quoted equity securities which represents 10% of the number of fully paid ordinary securities on issue at the commencement of that 12-month period as adjusted in accordance with the formula in ASX Listing Rule 7.1 (10% Placement Facility). The expression “equity securities” has the meaning given in the ASX Listing Rules.

An eligible entity is an entity that is not included in the S&P/ASX 300 Index and has a market capitalisation of \$300 million or less (excluding restricted securities and securities quoted on a deferred settlement basis). At the date of this Circular, the Company is an eligible entity. Note however that if, on the date of this Meeting, the market capitalisation of the Company exceeds \$300 million or the Company

has been included in the S&P/ASX 300 Index, then this Resolution 6 will no longer be effective and will be withdrawn.

The Company is now seeking shareholder approval by way of a special resolution to have the ability to issue equity securities under the 10% Placement Facility available under ASX Listing Rule 7.1A. The maximum number of equity securities that may be issued under the 10% Placement Facility will be determined in accordance with the formula prescribed in Listing Rule 7.1A.2 (see below).

Resolution 6 is a special resolution and therefore requires approval of 75% of the votes cast by Shareholders present and eligible to vote (in person, by proxy, by attorney or, in the case of a corporate Shareholder, by a corporate representative).

Outcome of this Resolution

If Shareholders approve Resolution 6:

- (a) the number of equity securities permitted to be issued under the 10% Placement Facility will be determined in accordance with the formula prescribed in Listing Rule 7.1A.2 (see below); and
- (b) the Company will be able to issue equity securities up to the combined 25% limits in Listing Rules 7.1 and 7.1A without further shareholder approval.

If Resolution 6 is not passed, the Company:

- (a) will not be able to access the additional 10% capacity to issue quoted Equity Securities without Shareholder approval available under ASX Listing Rule 7.1A, and
- (b) will remain subject to the 15% limit on issuing (or agreeing to issue) Equity Securities without Shareholder approval set out in ASX Listing Rule 7.1.

Type of equity securities

Any equity securities issued under the 10% Placement Facility must be in the same class as an existing quoted class of equity securities of the Company. The Company has one class of quoted equity securities on issue, being CDI's over Common Shares (ASX Code: KCC).

Formula for calculating 10% Placement Facility

The maximum number of equity securities that may be issued by the Company under the 10% Placement Facility pursuant to Listing Rule 7.1A2 is calculated in accordance with the following formula:

$$(A \times D) - E$$

“A” is the number of Shares on issue 12 months before the date of issue or agreement to issue:

- (a) plus the number of Shares issued in the previous 12 months under an exception in ASX Listing Rule 7.2 other than exception 9, 16 or 17;
- (b) plus the number of fully paid ordinary shares issued in the relevant period on the conversion of convertible securities within ASX Listing Rule 7.2 where:
 - (i) the convertible securities were issued or agreed to be issued before the commencement of the relevant period; or
 - (ii) the issue of, or agreement to issue, the convertible securities was approved, or taken under those rules to have been approved, under ASX Listing Rule 7.1 or 7.4
- (c) plus the number of fully paid ordinary shares issued in the relevant period under an agreement to issue securities within ASX Listing Rule 7.2 Exception 16 where:
 - (i) the agreement was entered into before the commencement of the relevant period; or
 - (ii) the agreement or issue was approved, or taken under those rules to have been approved, under ASX Listing Rule 7.1 or 7.4;
 - (iii) plus the number of partly paid shares that became fully paid in the previous 12 months;
- (d) plus the number of Shares issued in the previous 12 months with approval of holders of Shares under ASX Listing Rules 7.1 and 7.4. This does not include an issue of fully paid ordinary shares under the entity's 15% placement capacity without Shareholder approval; and
- (e) less the number of Shares cancelled in the previous 12 months.

“D” is 10%

“E” is the number of equity securities issued or agreed to be issued under Listing Rule 7.1A.2 in the 12 months before the date of the issue or agreement to issue that are not issued with the approval of shareholders under Listing Rule 7.4.

The ability of an entity to issue equity securities under Listing Rule 7.1A is in addition to the entity's 15% placement capacity under Listing Rule 7.1. The actual number of equity securities that the Company will have capacity to issue under Listing Rule 7.1A will be calculated at the date of issue of the equity securities in accordance with the formula stated above.

10% Placement Period

If Shareholders approve this Resolution 6, the Company's ability to issue quoted equity securities under the 10% Placement Facility will commence on the date of the Meeting and expire on the first to occur of the following:

- (i) the date that is 12 months after the date of the Meeting;
- (ii) the time and date of the Company's next annual general meeting.;
- (iii) the time and date of the approval by Shareholders of a transaction under ASX Listing Rules 11.1.1 or 11.2,

10% Placement Period

If Shareholders approve this Resolution 6, the Company's ability to issue quoted equity securities under the 10% Placement Facility will commence on the date of the Meeting and expire on the first to occur of the following:

- (j) the date that is 12 months after the date of the Meeting;

- (ii) the time and date of the Company's next annual general meeting;
- (iii) the time and date of the approval by Shareholders of a transaction under ASX Listing Rules 11.1.1 or 11.2,
(the "10% Placement Period").

Minimum Issue Price and Cash Consideration

The issue price of equity securities issued under Listing Rule 7.1A must be a cash consideration per equity security of not less than 75% of the volume weighted average market price (VWAP) of equity securities in the same class calculated over the 15 Trading Days on which trades in the class were recorded immediately before:

- (i) the date on which the price at which the equity securities are to be issued is agreed by the Company and the recipient of the equity securities; or
- (ii) if the equity securities are not issued within 10 Trading Days of the date in paragraph (a) above, the date on which the equity securities are issued.

Purpose of Funds Raised

Funds raised from the issue of equity securities under the 10% Placement Facility are intended to be used towards advancing existing assets and investments, the acquisition and development of new assets and investments, corporate and administration costs and working capital.

Economic and Voting Dilution Risk

If Resolution 6 is approved by Shareholders and the Company issues equity securities under the 10% Placement Capacity, the existing Shareholders' voting power in the Company will be diluted as shown in the below table (in the case of Options, only if the Options are exercised). There is a risk that:

- (i) the market price for the Company's equity securities may be significantly lower on the date of the issue of the equity securities than on the date of the Meeting; and
- (ii) the equity securities may be issued at a price that is at a discount to the market price for the Company's equity securities on the issue date, which may have an effect on the amount of funds raised by the issue of the equity securities.

The dilution table below shows the dilution of existing Shareholders on the basis of the current market price of Shares and the current number of Shares for variable "A" calculated in accordance with the formula in Listing Rule 7.1A(2) as at the date of this Notice.

The dilution table also shows:

- (i) two examples where variable "A" has increased, by 50% and 100% and the voting dilution impact of such an increase. Variable "A" is based on the number of Shares the Company has on issue. The number of Shares on issue may increase as a result of issues of Shares that do not require Shareholder approval (for example, a pro rata entitlements issue or scrip issued under a takeover offer) or future specific placements under Listing Rule 7.1 that are approved at a future Shareholders' meeting; and
- (ii) two examples of where the issue price of Shares has decreased by 50% and increased by 100% as against the current market price.

Number of Shares on Issue (Variable 'A' in ASX Listing Rule 7.1A)	Dilution			
	Issue Price (per Share)	A\$0.0775 (50% decrease in current issue price)	A\$0.155 (Current issue price)	A\$0.31 (100% increase in current issue price)
120,712,026 (Current Variable A)	Shares issued – 10% voting dilution	12,071,203	12,071,203	12,071,203
	Funds raised	\$ 935,518	\$ 1,871,036	\$ 3,742,072
181,068,039 (50% increase in Variable A)	Shares issued – 10% voting dilution	18,106,804	18,106,804	18,106,804
	Funds raised	\$ 1,403,277	\$ 2,806,544	\$ 5,613,109
241,424,052 (100% increase in Variable A)	Shares issued – 10% voting dilution	24,142,405	24,142,405	24,142,405
	Funds raised	\$ 1,871,036	\$ 3,742,072	\$ 7,484,145

The dilution table has been prepared on the following assumptions.

- (i) The current issue price is A\$0.155 being the closing price of the CDIs on the ASX on 12 November 2021.
- (ii) The above table only shows the dilutionary effect based on the issue of the Placement Securities (assuming only Shares are issued and no convertible securities are converted) and no shares are issued under the 15% placement capacity under Listing Rule 7.1.
- (iii) The 10% voting dilution reflects the aggregate percentage dilution against the issued share capital at the time of issue.
- (iv) The Company issues the maximum number of equity securities available under the 10% Placement Facility.
 - (i) The issue price of the Placement Securities used in the table is the same as the market price and does not take into account the discount to the market price (if any).
 - (ii) The issued share capital (Variable A) shows the present issued share capital (assumes the full 15% placement capacity under listing rule 7.1 is available) and also shows additional scenarios in which the Issued share capital has increased (by both 50% and 100%) and the market price of the shares has decreased by 50% and increased by 100%.

Allocation Policy

The Company's allocation policy is dependent on the prevailing market conditions at the time of any proposed issue pursuant to the 10% Placement Facility.

The identity of the recipients of equity securities will be determined on a case-by-case basis having regard to the factors set out in the Company's allocation policy, including but not limited to the following:

- (i) the methods of raising funds that are available to the Company, including but not limited to, rights issue or other issue in which existing security holders can participate;
- (ii) the effect of the issue of the equity securities on the control of the Company;
- (iii) the financial situation and solvency of the Company; and
- (iv) advice from corporate, financial and broking advisers (if applicable).

The recipients under the 10% Placement Facility have not been determined as at the date of this Notice but may include existing Substantial Holders and/or new Shareholders who are not related parties or associates of a related party of the Company.

Use of 10% Placement Facility in prior 12 months

The Company has not had this 10% Placement Facility in place before and has therefore not issued, nor agreed to issue, any equity securities under Rule 7.1A.2 in the 12-month period preceding the date of this Meeting and had not agreed, before the 12-month period referred to in the preceding paragraph, to issue any equity securities under rule 7.1A.2 where such securities remain unissued as at the date of this Meeting.

Voting Exclusion

As at the date of dispatch of this Notice, the Company is not proposing to make an issue of equity securities under Listing Rule 7.1A.2 and has not approached any particular existing Shareholder or security holder or an identifiable class of existing security holder to participate in the issue of the equity securities. Therefore, a voting exclusion statement is not required under Listing Rule 7.3A.7.

Resolution

To consider, and if thought fit, to pass with or without amendment the following as a **Special Resolution**:

“That, for the purposes of Listing Rule 7.1A, the Shareholders approve the issue of up to 10% of the issued capital of the Company calculated in accordance with the formula prescribed in Listing Rule 7.1A.2 and on the terms and conditions set out in the Information Circular.”

The Board of Directors recommends that you vote in favour of the above resolution.

7. Approval of a new Equity Incentive Plan

The Company is seeking shareholder approval for the new Equity Incentive Plan (“EIP”) that was approved by the Company’s board on 1st October, 2021. The EIP will replace the stock option plan (the “Plan”) which was approved by Shareholders at the Company’s Annual and General Meeting held on November 22, 2013. Under this new EIP, issuances of options and performance rights will be limited to the greater of 20% of the issued shares of the Company at the time the EIP is adopted or the limits approved for the purposes of the ASX Listing Rules (which are set out below). The EIP is attached – [a copy attached Schedule “A”].

Summary of Material Terms of the EIP

1. The statement objectives of the EIP are:
 - To provide eligible participants with an additional incentive to work to improve the performance of the Company;
 - attract and retain participants essential for the continued growth and development of the Company;
 - promote and foster loyalty and support amongst participants for the benefit of the Company;
 - enhance the relationship between the Company and participants for the long-term mutual benefit of all parties; and
 - provide participants with the opportunity to acquire options or performance rights in the Company, in accordance with the EIP rules.
2. Options and performance rights can be issued under the EIP. The main distinction between performance rights and options are that the performance rights typically convert without payment on satisfaction of pre-determined milestones which may be time based or may be performance based (or both). The terms of options and performance rights (including any performance milestones) are to be set out in invitation documents provided to participants and will be determined by the Board.
3. Rules of the TSX Venture Exchange and ASX guide the operation of the plan. The ASX has granted a waiver of Listing Rules 10.11 (relating to approvals required for issues to related parties and other persons listed in that rule – refer below) and 10.18 (relating to the payment of termination benefits to related parties) on conditions that the Company comply with the TSX rules and report annual on the number of securities issued to directors or related parties.
4. Shareholder approval is being sought for the purposes of the TSX Venture Exchange rules to approve the adoption of the EIP and the issue of options or performance rights under the EIP not exceeding either: (a) 20% of the Company’s issued capital at the time of adopted of the EIP; and (b) the amount approved for the purposes of the ASX rules, being up to a further 7,000,000 rights to securities (currently intended to be performance rights) under the EIP without further shareholder approval. As outlined below under the heading “Performance Rights Issue to Directors” the approval sought for the EIP is proposed to replace, in part, the Company’s existing Shares-for-Services Plan arrangements for certain directors and officers.

5. Pursuant to the TSX Venture Exchange rules, grants under the EIP are subject to limitations which include:
 - A requirement that no issue be made to any person whose rights or options would represent greater than 5% of the Company.
 - No individual consultant or IR consultant may be granted options or rights in a 12 month period which exceed 2% of the issued capital (calculated on the date the option/right is granted).
6. The EIP contains terms around the treatment of vested and unvested options or performance rights in the event a participant ceases to be an employee or consultant of the Company which include:
 - The lapse of any unvested options or performance rights where a participant is a bad leaver and a requirement to exercise any vested options or performance rights within 60 days (subject to the EIP rules).
 - The ability for participants to retain a pro-rata percentage of unvested performance rights and options in the where the participant is a good leaver and a requirement to exercise those retained options or performance rights within a period not longer than 12 months from the date the participant ceases to be an eligible employee under the EIP rules).
7. The EIP otherwise contains terms which are typical to similar equity incentive plans including processes for the issues of applications for options and performance rights and processes for exercise and lapse of options and performance rights; adjustments in the event of reconstructions; accelerated vesting in the case of certain corporate control events.

As noted above a copy of the EIP is attached.

Performance Rights Issue to Directors

Certain directors have elected to accept the share component of their existing remuneration packages in the form of performance rights in lieu of a shares for service payment under the Company's existing Shares-for-Services Plan. For clarity, the total compensation agreements have not changed with shareholder and TSX Venture Exchange approvals in place for the existing agreements.

Specifically, directors Mr Spring and Mr McRae and Mr Holliday have agreed to forego the shares component of the fees under the Shares-for-Services Plan and for performance rights to be issued. If, due to the EIP plan limits, the number of performance rights specified below cannot be issued the Company may elect to pay cash in lieu of those performance rights.

The Company has a waiver of Listing Rule 10.11 to permit the issue of securities to related parties (which would include Mr Spring and MR McRae as directors of the Company), subject to certain conditions including compliance with the TSX Venture Exchange Rules and annual reporting obligations.

The number of performance rights proposed to be issued to the Directors noted above will be calculated by dividing the value of the salary sacrificed by the 5-day VWAP applying immediately after the conduct of the 2021 AGM.

The performance rights are proposed to be issued within the issued capital limits approved for the EIP – referred to above.

For information, Directors Marks and Nadarajah, and CFO Ms Liang will continue to receive payment of fees under the Shares-for-Services Plan, where the share component of the debt will be paid in shares issued quarterly in arrears where the share price will continue to be determined by reference to the higher of the 5 day VWAP for the last week of the quarter just past or the last closing price.

It should be noted that the remuneration levels for directors have not increased since January 2019.

CEO Bonus 2020

The performance of the Chief Executive Officer was assessed by the Remuneration Committee against his CY2020 KPI's. Overall, the performance of the CEO was, in the view of the Remuneration Committee, excellent for the year highlighted by a number of successful operational and financial achievements. The score was negatively impacted by the successful IPO and fundraise being deliberately moved into Q1 2021, and positively impacted by a significant re-rate in the share price.

A total bonus of C\$265,644 was awarded with C\$159,273 to be taken in the issue of performance rights over the subsequent 3 calendar years – 1/3 vesting at the end of 2021, 2022 and 2023. The long-term share grant component of the performance bonus will be priced at C\$0.30 cents, which is equivalent to the 12 month 2020 VWAP.

The Company has a waiver of Listing Rule 10.11 to permit the issue of securities to related parties (which would include Mr Spring as a director of the Company), subject to certain conditions including compliance with the TSX Venture Exchange Rules and annual reporting obligations.

The 530,519 performance rights proposed to be issued to Sam Spring will vest progressively over three years as noted above and will entitle Sam Spring to one share (or CDI) for every performance right on vesting.

The performance rights for the CEO 2020 bonus are proposed to be issued within the issued capital limits approved for the EIP referred to above.

ASX Listing Rule Information

In addition to the above summary, for the purposes of approval of the plan pursuant to ASX Listing Rule 7.2 Exception 13, the Company notes that:

1. As the EIP is a new incentive scheme no securities have been issued under it. However, if the EIP is approved the 7,580,575 options issued on 1 October 2021 will be subject to the EIP rules.
2. As noted above, in addition to the 7,580,575 options issued on 1 October 2021, the Company is seeking approval to issue up to a further 7,000,000 performance rights or options under the EIP, which is proposed to replace the Company's existing Shares-for-Services Plan arrangements for certain directors and officers (further details provided above). Further details of current proposed issues under the EIP are set out above (which relate to a CEO Bonus and various arrangement with directors to take performance rights in lieu of salary), the remaining capacity under the EIP limits may be used for future incentives to directors, employees (including new employees) or consultants.

Resolution

An ordinary resolution requires the favourable vote of a simple majority of the votes cast in person or by proxy at the Meeting. Management of the Company recommends that the Shareholders approve the following resolution:

“RESOLVED THAT

1. the Company’s Equity Incentive Plan be hereby ratified and confirmed and is approved for the purposes of ASX Listing Rule 7.2 Exception 13 for the issue of up to 14,580,575 options or performance rights as described in the MIC;
2. the Board of Directors be authorized to grant options or performance rights under and subject to the terms and conditions of the EIP, and subject to the rules and waivers of the TSX Venture Exchange and ASX, which may be exercised to purchase up to 20% of the issued Common Shares of the Company as at the date the EIP is approved
3. the outstanding stock options which have been granted prior to the implementation of the EIP (set out in item 8 below) shall, for the purpose of calculating the number of stock options or performance rights that may be granted under the EIP, be treated as options granted under the EIP; and
4. any one director or officer of the Company be authorized and directed to perform such acts and deeds and things and execute all such documents, agreements and other writings as may be required to give effect to the true intent of these resolutions.”

A full copy of the Plan will be available for inspection at the Meeting and is provided in the MIC.

Voting Exclusion

The Company will disregard any votes cast in favour of or on behalf of a person who is eligible to participate in the employee incentive scheme or any of their associates. However, this does not apply to a vote cast in favour by:

- a person as proxy or attorney for a person who is entitled to vote on the resolution, in accordance with the directions given to the proxy or attorney to vote on the resolution in that way; or
- the Chair of the Meeting as proxy or attorney for a person who is entitled to vote on the resolution, in accordance with a direction given to the Chair to vote on the resolution as the Chair decides; or
- a holder acting solely as nominee, trustee, custodial or other fiduciary capacity on behalf of a beneficiary provided the following conditions are met:
 - the beneficiary provides written confirmation to the holder that the beneficiary is not excluded from voting, and is not an associate of a person excluded from voting, on the resolution; and
 - the holder votes on the resolution in accordance with directions given by the beneficiary to the holder to vote in that way.

Accordingly, for the purposes of this resolution the Directors and the Officers will abstain from voting.

The Board of Directors recommends that you vote in favour of the above resolution.

The Company's Board of Directors, as part of the 2021 Remuneration review approved a number of resolutions, on October 1st, 2021, which are subject to shareholder approval at the Company's 2021 AGM. The following information is provided to shareholders for their consideration and to assist voting.

8. Ratification of Prior Options Issue

Background

Kincora has historically issued options to directors and key staff up to 10% of the issued TSX Venture Exchange listed capital.

Since the last issuance of options in January 2021 two key events have occurred:

- Kincora has undergone a 3:1 share consolidation and subsequently has raised A\$10m in cash via the March 2021 IPO.
- A large batch of options have expired in September 2021.

The combined effect of these two events has seen the number of “live options” as a percentage of total equities (shares and CDI's) issued decrease to 3.72%.

The Board of Directors approved on October 1st, 2021:

- The issuance of additional options, to senior executives and board directors, to achieve a ratio of “live options to total securities on issue” of 10%.
- An increase in the proportion of options accruing to key full time executives – from 37% to 47%.
- Key terms of the options issue are a term of 2.5 years with an option price of 20c increasing to 30c after 18 months.

The pricing of the options was carefully considered with the following factors taken into account:

- The ASX IPO issue price of A\$0.20 cents per share.
