

TARGET MARKET DETERMINATION – PLACEMENT OFFER

MADE BY: Kincora Copper Limited (ARBN 645 457 763) of 400 – 837 West Hastings Street, Vancouver, BC V6C 3N6, Canada (**the Company**)

PRODUCTS: This Target Market Determination (**TMD**) relates to an offer of 1,904,762 options (**New Options**) (each with an exercise price of A\$1.35 (1 Australian dollar and 35 Australian cents), expiring 3 years from issue and which, upon exercise, entitle the holder to one Chess Depositary Interest (**CDI**) representing one common share in the capital of the Company (**Share**)).

New Options are proposed to be offered and issued to participants in the placement described in section 1.2 of the Prospectus (defined below) (**Placement Offer**). The Placement Offer is only made to participants in that placement.

The Placement Offer is described in and made under the prospectus of the Company dated 23 March 2026 (**Prospectus**). Capitalised terms in this TMD not defined in this TMD are as defined in the Prospectus.

EFFECTIVE DATE: 23 March 2026

This TMD has been prepared by the Company in relation to the offer of New Options under the Placement Offer in the Prospectus. The Prospectus was lodged with the Australian Securities and Investments Commission (**ASIC**) on 23 March 2026 and released to the Australian Securities Exchange (**ASX**) on that date. An electronic version of the Prospectus is available in the ASX announcements of the Company (<https://www.asx.com.au/markets/trade-our-cash-market/announcements.kcc>).

The Placement Offer is referred to in this TMD as the **Offer** and the New Options offered under the Placement Offer are referred to in this TMD as the **Options**.

The Company will send a copy of the Prospectus, or instructions about how to download it, to those parties named in the Prospectus to whom an invitation to apply for Options is being provided. A copy can also be downloaded from the ASX. Readers of this TMD should obtain and carefully read and consider the Prospectus in full and consult their professional advisers if they have any questions regarding the contents of the Prospectus or this TMD. Readers of this TMD who are eligible and wish to acquire Options under the Placement Offer (being those persons named in the Prospectus or, as applicable, their nominee(s)) will need to obtain and read a copy of the Prospectus and complete an application in the form or manner that will be in, accompanied by or described in, the Prospectus.

This TMD is not a disclosure document for the purposes of the *Corporations Act 2001* (Cth) and therefore has not been lodged, and does not require lodgement, with ASIC.

This TMD is not to be treated as a full summary of the product terms and conditions and is not intended to provide financial advice. Investors should refer to the Prospectus for the terms and conditions of the product and when making a decision in respect of the product.

Target market

The information below summarises the overall class of investors that fall within the target market for the Options, based on the key attributes of the product and the objectives, financial situation and needs that they have been designed to meet. The Options have been designed for investors whose likely objectives, financial situation and needs are aligned with the product.

The Company expects an investment by acquiring the Options will be suitable for investors who take a short to medium term outlook on their investment and are accustomed to making speculative investments in the mining exploration sector.

Investors with a short-term outlook for their investment may benefit from the Options being listed on ASX and the Options being able to be traded. However as listing is conditional, reliance should not be placed upon listing being achieved and the Options being able to be traded.

Investors with a short to medium term outlook for their investment will benefit from the ability to trade the underlying CDIs issued on exercise of the Options prior to the expiry date should the exercise price be lower than the CDI price.

Investors with a medium-term outlook will benefit from the ability to exercise Options prior to the expiry date and receive CDIs and exposure to potential upside on the CDIs into the future.

An exercise price is required to be paid to acquire CDIs on exercise of Options. As such, the capacity to realise the underlying value of the Options could require that they be exercised on or before the expiry date. Investors in the target market will need to be in a financial position to have sufficient available funds so as to facilitate an exercise of the Options prior to the expiry date.

Investors' ability to sell the Options prior to the expiry date or to sell CDIs issued upon exercise of Options may be limited by a lack of liquidity in the trading of the Options (if listed) and/or CDIs, and the price of the Options (if listed) and/or the CDIs.

It is also expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment. Options and CDIs issued upon exercise of the Options offer no income guarantee or capital protection for investors.

The Company considers that an investment in the Options and CDIs issued upon exercise of the Options is highly speculative, such that an investment in the Company may not be appropriate for an investor who would not be able to bear the loss of some or all of their investment. Investors should also have sufficient financial literacy and resources (including appropriate advisers) to understand and appreciate the potential risk of investing in the Company (including the Options and CDIs issued upon exercise of the Options) as an asset class generally and the more specific risks of investing in the Company as a mining exploration company including risks as described in the Prospectus.

Distribution conditions

The Placement Offer is only being made under the Prospectus. Acceptances of or applications for Options under the Placement Offer can only be made under the Prospectus by completing an application in the form or manner that will be in, accompanied by or described in, the Prospectus.

The Company will include a copy of this TMD on its website, www.kincoracopper.com. By making an application for Options under the Placement Offer made in the Prospectus, the applicant warrants that they have obtained, read and understood this TMD (as the TMD applicable to the Options) and that they meet the eligibility criteria of, and fall within, the target markets set out in this TMD.

Review triggers

The Options are being offered under the Prospectus for limited offer periods as set out or provided for in the Prospectus. The Options will no longer be available for investment by way of issue under the Prospectus following close of the applicable offer period(s). Accordingly, this TMD applies between the lodgement of the Prospectus and the issue of the Options under the Prospectus (**Offer Period**) unless the Offer is withdrawn or the issue of the Options otherwise does not proceed.

To allow the Company to determine whether circumstances exist indicating this TMD is no longer appropriate to the Options, the following review triggers apply for the Offer Period:

- the Company lodges a supplementary prospectus relevant to the Offer or the issue of the Options or a replacement prospectus with ASIC;
- a new offer of Options that requires preparation of a further disclosure document is made;
- any event or circumstance occurs that materially changes a factor that was taken into account in making this TMD;
- the existence of a significant dealing of the Options that is not consistent with this TMD (noting on-sale of Options on-market (if listed) and/or exercise of the Options and on-sale of CDIs issued upon exercise of the Options is not considered to be a significant dealing);
- ASIC raises concerns with the Company regarding the adequacy of the Prospectus, the design or distribution of the Options, or this TMD; and
- there are material changes to the regulatory environment that applies to an investment in the Options.

Review period

If a review trigger occurs during the Offer Period, the Company will review this TMD in light of the review trigger. The Company will otherwise complete a review of the TMD immediately prior to the issue of the Options under the Offer.

Information reporting

The requirements of all distributors to report to the Company are set out below:

Whether the distributor received complaints about the Options

- During the Offer Period, distributors are to give the Company a written report within 10 business days after the end of each quarter. A written report is also to be given the Company 10 business days after the end of the Offer Period.

- Each report is to include the number of complaints received and a summary of the nature of each complaint or a copy of each complaint.

A significant dealing of the Options that is not consistent with this TMD

- Give the Company a report as soon as reasonably practicable (and in any event no more than 10 business days) after the significant dealing occurs.
- Each report is to include details of the significant dealing and reasons the distributor considers the significant dealing is not consistent with this TMD.

Summary of steps to be taken by the distributor to ensure its conduct was consistent with this TMD

Within 10 business days after close of the Offer, distributors are to give the Company a report which includes a summary of steps taken by the distributor to ensure its conduct was consistent with this TMD.

Other offer under the Prospectus

This TMD is made solely in respect of the Options and the Placement Offer. The Prospectus also contains the Broker Offer. The Company has issued, and relevant readers should refer to, a separate TMD in respect of the New Options offered in connection with the Placement Offer made under the Prospectus. That TMD is available at the Company's website at www.kincoracopper.com.
